CFPB card and payment complaints, 2020 to 2026

volume, late responses and ticket-routing model

Late means the CFPB timely-response flag is No, not a finding of wrongdoing. 2026 is a partial year. Narratives are consumer opt-in and cover about half of complaints.

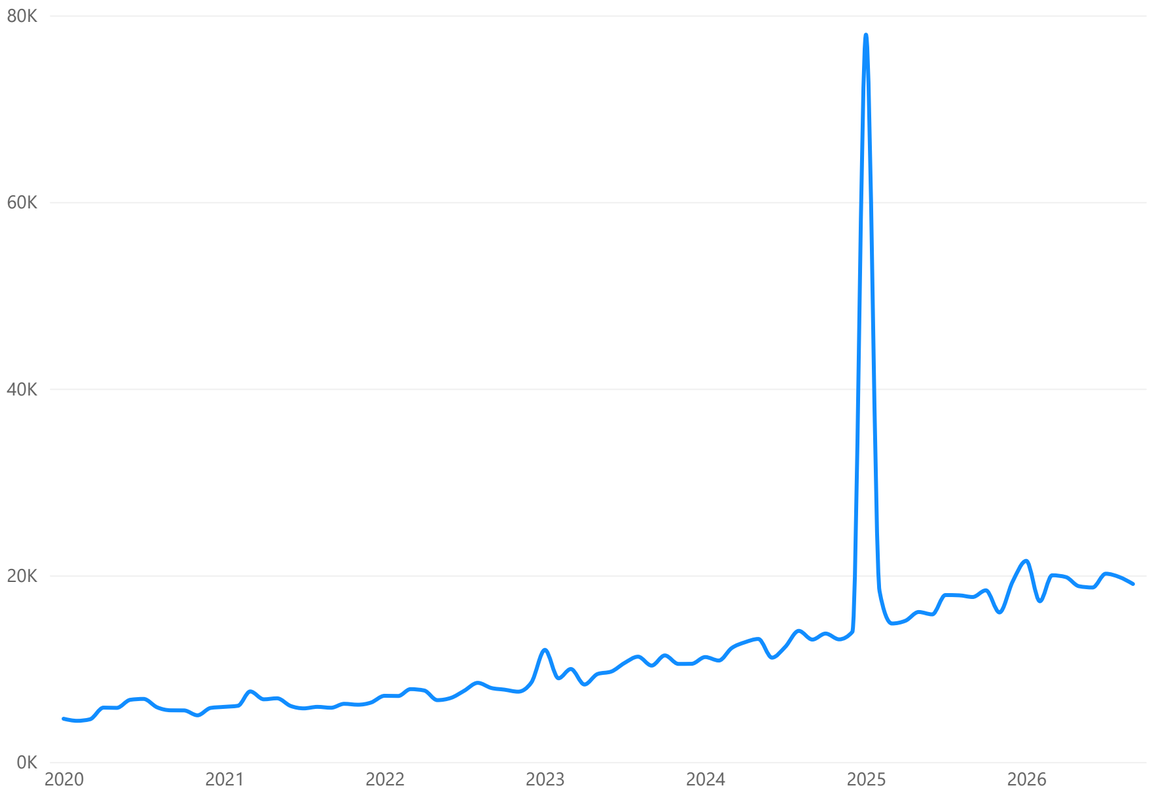

Total complaints	Late responses	Late rate	Narrative coverage
9,49,079	10706	1.13%	50.72%

Jan 2025 spike: about 47K of 78K complaints came from two companies, Block and Early Warning Services, in money transfer.

Paypal Holdings, Inc	34704	0.06%
Total	**877883**	**0.79%**

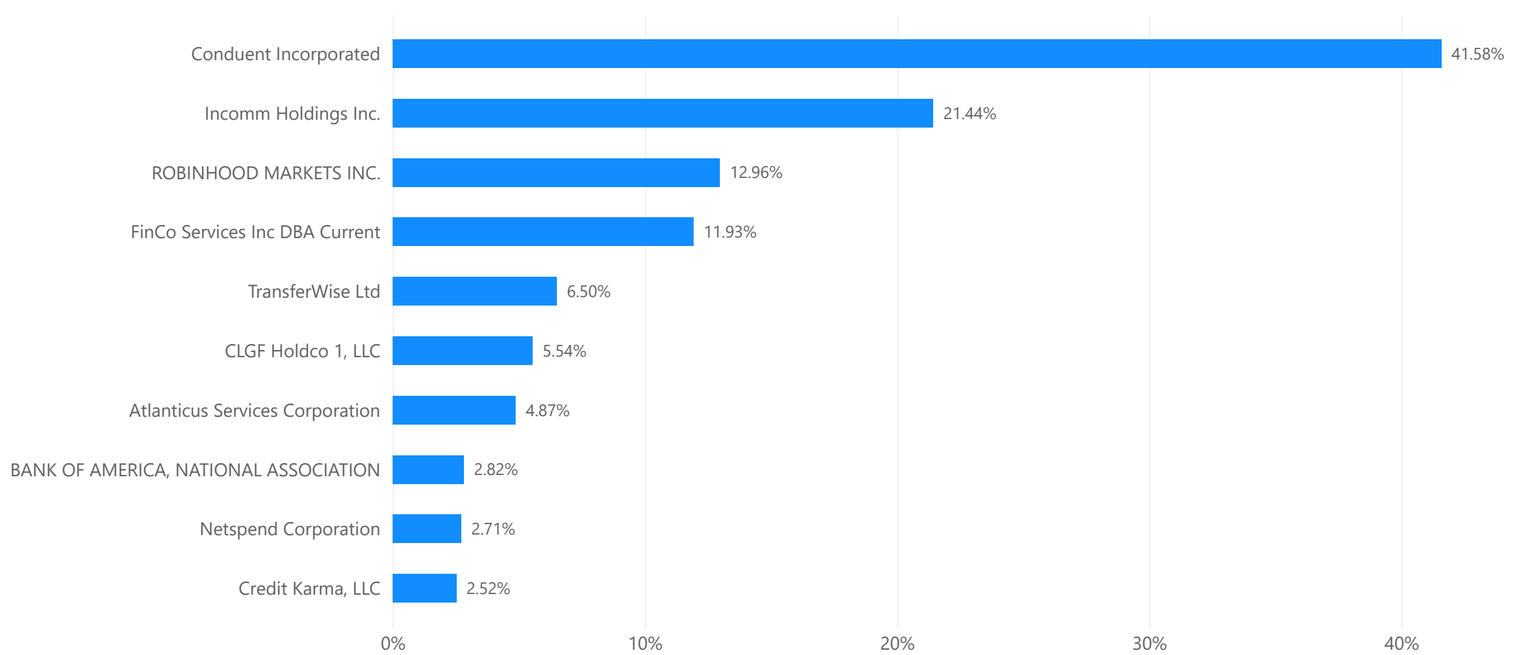

Companies with fewer than 200 complaints in a product are excluded, so this covers 877,883 of 949,079 complaints. The excluded small companies have a higher late rate (about 5%), so the 0.79% total here is lower than the 1.13% overall

Complaint volume vs late rate, by company

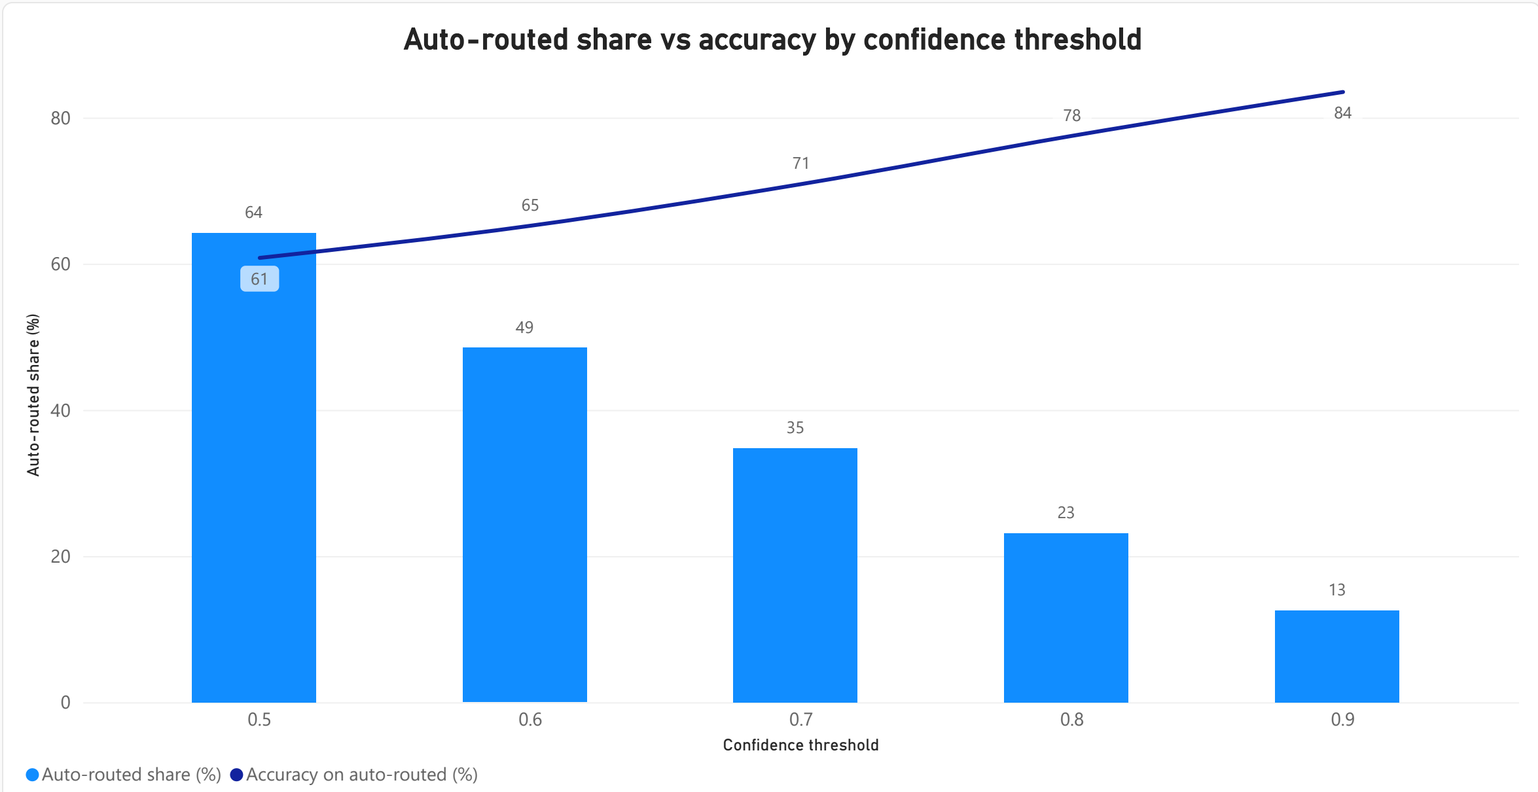

Sum of complaints and Company late rate by company

Top 10 companies by late rate (1,000+ complaints)

Model: TF-IDF + logistic regression, trained on 2020-2024, tested on 2025 onward (181,668 tickets). Accuracy 52.3% vs a 37.7% baseline (macro F1 0.53). January 2025 had an unusual burst: 32.7K tickets, 68% of them 'Other issues' (the hardest category), with accuracy of 38.7%. Excluding that month, accuracy is 55.3% (macro F1 0.55). At 0.8 confidence, 23% of tickets auto-route at 77.5% accuracy (26% at 78.3% excluding January). Main weakness: 29% of 'Other issues' tickets are predicted as 'Fraud or scam'. Use it as a triage aid, not an autopilot.

Where each true category is predicted (rows sum to 100%; diagonal = recall)

true_issue	Closing an account	Fees or interest	Fraud or scam	Getting a credit card	Lender charging account	Managing an account	Opening an account	Other features	Other issues	Payments problem	Purchase on statement
